This is the second book in the Mindspeak series. An intruder has seized control of Lexi Matthew's mind, putting those closest to her in grave danger. When someone snakes into Lexi's head and threatens Jack's life at Lexi's own hand, she must quickly decide: leave Jack and the web of lies and controversial medical science behind in order to protect him, or stay and fight to regain control of her own mind but risk Jack's life. Before Lexi can choose, she's immersed into the underground world of the International Intelligence Agency, where she discovers the realm of cloning and mind control is much larger than she and Jack ever imagined and is growing bigger and more dangerous. As the band of teenage human clones uncovers more of their supernatural abilities, a dominant force inside the IIA is at work to take over their powers. Can Lexi stop the person who has invaded her mind before the IIA captures them all, or will she sacrifice herself to save those she loves?

She was created for a purpose so revolutionary, someone was willing to kill for it. Seventeen-year-old Lexi Matthews keeps two secrets from her elite boarding school classmates—she's the daughter of a famous and controversial geneticist, and she can influence people's thoughts. But after new student Jack DeWeese heals her broken arm with an anything-but-simple touch, he forces Lexi to face a new reality—her abilities reach much further than speaking to the minds of others. After Lexi's father goes missing and she receives threatening emails, she can't decide whether to fall into Jack's arms or run and hide. As Lexi seeks answers to what she and Jack are, she discovers a truth more unsettling than anything her science books can teach. And letting Jack into her life of secrets is not only a threat to her very existence, but it just might break her heart wide open.

This is the third book in the Mindspeak series. Wellington Boarding School is home to human clones, an identity that Lexi Matthews once hoped to escape. Shattered by the loss of her father and then her best friend at the hand of Sandra Whitmeyer, the woman from whom she was created, Lexi Matthews is after one thing... Revenge. When Sandra sends a series of threatening "gifts" beginning the night of Lexi's eighteenth birthday, she determines that Sandra will never stop destroying the lives of her and her friends. Once again, Lexi must battle to grasp the complexities of her creation. As Lexi and Jack discover the horrific details to experiments Sandra is conducting with human life inside her new lab,
