Neither Venus and Adonis nor the Rape of Lucrece is widely read. Both poems were quite popular during Shakespeare's time, however, and each gives promise of future development of the playwright's later skills. Still, as the Riverside Shakespeare says, "Venus and Adonis . . . is an Ovidian poem that does not fully succeed" (1798). One might assert this about the Rape of Lucrece also. Still, the Shakespeare scholar can profit from the poetic approach in both.

COLLEGE ALGEBRA: REAL MATHEMATICS, REAL PEOPLE is an ideal student and instructor resource for courses that require the use of a graphing calculator. The quality and quantity of the exercises, combined with interesting applications and innovative resources, make teaching easier and help students succeed. Retaining the series' emphasis on student support, selected examples throughout the text include notations directing students to previous sections to review concepts and skills needed to master the material at hand. The book also achieves accessibility through careful writing and design—including examples with detailed solutions that begin and end on the same page, which maximizes readability. Similarly, side-by-side solutions show algebraic, graphical, and numerical representations of the mathematics and support a variety of learning styles. Reflecting its subtitle, this significant revision focuses more than ever on showing students the relevance of mathematics in their lives and future careers.
