and American studies by using an intercultural and bilingual approach to Chinese American literature. King-Kok Cheung launches a new transnational exchange by examining both Chinese and Chinese American writers. Part 1 presents alternative forms of masculinity that transcend conventional associations of valor with aggression. It examines gender refashioning in light of the Chinese dyadic ideal of wen-wu (verbal arts and martial arts), while redefining both in the process. Part 2 highlights the writers' formal innovations by presenting alternative autobiography, theory, metafiction, and translation. In doing so, Cheung puts in relief the literary experiments of the writers, who interweave hybrid poetics with two-pronged geopolitical critiques. The writers examined provide a reflexive lens through which transpacific audiences are beckoned to view the "other" country

people who, on second glance, have led truly extraordinary lives. She developed an appreciation for their words, wit, & wisdom & has made it her life's work to pass along their experiences. In this collection of original short stories, she pays homage to these ordinary folks through lyrical tributes, many of which have aired or will air on National Public Radio. Beginning late this year, her own program, Just Plain Folks: Wisdom from the Front Porch, will air weekly on NPR. Like her radio segments, the stories in Just Plain Folks are meant both to entertain & to educate. Each story concludes with an author's note that places it in its proper cultural context.

community. But rumors swirled. Preaching on Sunday, people would say, killing on Monday. Far away in New York City, one of America's most beloved writers was about to get caught up in the strange and violent tale of Reverend Willie J. Maxwell. Harper Lee, author of the modern-day classic *To Kill a Mockingbird*, was searching for her next book when the perfect story came her way: There was a man, the Reverend, who had allegedly murdered five of his family members, and managed to do it without getting caught. Thanks to the skills of his talented lawyer, he collected sizeable amounts of money from insurance policies that named him as the beneficiary. It was said the Reverend used voodoo to commit the murders and that his magical powers made him untouchable. And then, at the funeral of his most recent alleged victim—his sixteen-year-old

stepdaughter—someone pointed a pistol at Reverend Maxwell's head and shot three times. Mesmerized by the string of bloody deaths, Harper Lee returned to her native Alabama. She spent months in Alexander City, getting to know the town and the people, slowly pulling out the threads of this macabre tale. She found a story that only a writer of her caliber could do justice to: a modern southern gothic tale of death, fraud, superstition, and race. But apparently she never finished the book. After all that research, all the time spent tracking leads, speaking with crucial sources, and examining records, she dropped the project. Why? Acclaimed investigative reporter Mark Seal, himself an Alabama native, follows the trails of both the Reverend and Harper Lee, bringing the lurid tale back to life. He interviews key players, including relatives and other survivors who bear witness to
