Get ready for your neonatal intensive care nursing certification exam with the only review developed in collaboration with three leading nursing organizations! From AACN, AWHONN, and NANN, Certification and Core Review for Neonatal Intensive Care Nursing, 5th Edition prepares you for your examination with hundreds of high-quality study questions and realistic test simulation. Based on the latest test plans of the AACN ' s CCRN®-Neonatal exam and the NCC ' s Neonatal Intensive Care Nursing (RNC-NIC) exam, review questions cover the changes to the Core Curriculum and reflect the latest evidence, essential knowledge, and best practices. New to this edition are three new chapters and 225 completely new review questions. This powerful study tool offers unparalleled preparation for your certification exam! Endorsed by the three most authoritative associations in neonatal intensive care nursing: the American Association of Critical-Care Nurses (AACN), the Association of Women ' s Health, Obstetric, and Neonatal Nurses (AWHONN); and the National Association of Neonatal Nurses (NANN). Realistic exam practice is offered through 675 total questions that mirror the certification exam content, the multiple-choice question format, and the distribution of content. Answers are provided for each question, accompanied by rationales and references, to enhance your understanding of the material. Online flexibility allows you to organize review questions and test format by your preferred examination, either the AACN or NCC. Online exam simulation — included free with each new copy of the book — mirrors the test-taking experience with an interactive, timed format. Customized study lets you choose whether to work through online questions in Study Mode or Examination Mode. Online remediation includes rationales for both correct and incorrect answers, and in-book remediation provides rationales for correct answers. A compact, portable size makes the book easier to study anytime, anywhere. 225 NEW review questions include 75 in the book and 150 additional online questions on the Evolve companion website. Thoroughly UPDATED review content reflects AACN ' s latest CCRN®-Neonatal exam and the NCC ' s latest Neonatal Intensive Care Nursing (RNC-NIC) exam, information in Core Curriculum for Neonatal Intensive Care Nursing, 5th Edition, and the newest evidence-based guidelines for neonatal critical care. NEW! Three new chapters include Grieving Process, Quality Improvement, and Facilitation of Learning. NEW focus on culturally sensitive care is included in an expanded Family Integration and Culturally Sensitive Care chapter. UPDATED rationales in the Answer Key are referenced to the most recent literature and evidence-based guidelines. Compatibility with iPads, iPhones, and other mobile devices allows online exam practice that is easy and convenient.

The STABLE Program is a neonatal education program that focuses on the post-resuscitation/pre-transport stabilization care of sick newborns. This learner manual serves as a student handbook for either self-study or instructor-led presentations. It includes more than 220 pages, illustrated in full color.

In this comprehensive resource, nursing staff development expert Jim Hansen, MSN, RN-BC, provides instruction and tools to plan, justify, and structure a nurse residency program that develops and retains new nurses through their first year

As a registered nurse for the last 28 years, my primary clinical expertise has been working in the pre-hospital environment as a flight nurse and a paramedic, as well as continuing to work in a variety of clinical areas which include the emergency department, pediatrics and endoscopy. My extensive clinical background has also given me the opportunity to work as a legal nurse consultant with one of the largest law firms in Arizona. As an EMS educator and program director of paramedic training programs for the last 20 years and most recently as the National Clinical Educator for one of the largest air medical transport companies, I truly enjoy teaching in a simple manner as to assure that students do have a strong basic understanding in making critical care decisions and that they will be providing the highest quality of patient care beginning from the least to the most invasive management of care for the patients they are transporting. My goal as a professional and as an EMS educator has always been and will continue to encourage students to have the desire to learn and grow in their profession, as well as contribute to EMS in a way that inspires positive change. A new " Multi-Coloured Manual" This book is a successor to and replacement for the highly respected manual and handbook on the benefits of flood and coastal risk management , produced by the Flood Hazard Research Centre at Middlesex University, UK, with support from Defra and the Environment Agency. It builds upon a previous book known as the "multi-coloured manual" (2005), which itself was a synthesis of the blue (1977), red (1987) and yellow manuals (1992). As such it expands and updates this work, to provide a manual of assessment techniques of flood risk management benefits, indirect benefits, and coastal erosion risk management benefits. It has three key aims. First it provides methods and data which can be used for the practical assessment of schemes and policies. Secondly it describes new research to update the data and improve techniques. Thirdly it explains the limitations and complications of Benefit-Cost Analysis, to guide decision-making on investment in river and coastal risk management schemes.
