The fourth edition of the Peach Blossom Cologne Company Audit Case contains many new features, most significantly exercises dealing with the audit of internal control over financial reporting. Optional exercises simulate the planning phase of a real audit, including preparation of an engagement letter, completing a time budget, and conducting analytical procedures. In analyzing the potential problems uncovered by analytical procedures, students are required to provide an analysis of risks and a discussion of those accounts that may present potential problems. The optional internal control flowcharting exercises are based on the client's computer system. Two statistical sampling exercises are included: an attributes sampling application and a variables sampling exercise using dollar-unit (PPS) sampling. New to this edition is a table that cross-references exhibits to their related assignments. Additionally, students are provided a CD that contains working paper templates enabling students to complete some or all of the working papers electronically. For those instructors who would like to provide audit programs to their students, a CD containing audit programs is available. Students can use these programs as a starting point for developing their own audit programs.

Audit professionals are valued members of society and are expected to be both skilled and ethical in their decision-making. The role of the auditor extends far beyond that of counting beans by demanding a social and political awareness, a technical knowledge, ethical principles and relationship skills. In addition, due to the team-oriented nature of the audit approach, auditors require strong team-building and interpersonal skills. This book offers expert descriptions of, and insights into, how such skills and responsibilities can be inculcated in tertiary education and professional training environments. Unlike other books which focus on auditing as a technical process, this volume examines auditing from a teaching and learning perspective. Expert contributors provide authoritative insights into an audit education which is embedded in accounting practice. The book's descriptions of these insights into improving education for future audit professionals may allow the introduction of new and challenging fields of enquiry. Audit Education will be of great interest to educators in tertiary institutions, trainers in professional firms, and key individuals in accounting professional bodies seeking to ensure their members possess acceptable levels of attainment for admission and continued membership. This book was originally published as a special issue of Accounting Education: an international journal.

A Newbery Honor WinnerA New York Times BestsellerThis stunning fantasy inspired by Chinese folklore is a companion novel to Starry River of the Sky and the New York Times bestselling and National Book Award finalist When the Sea Turned to Silver In the valley of Fruitless mountain, a young girl named Minli lives in a ramshackle hut with her parents. In the evenings, her father regales her with old folktales of the Jade Dragon and the Old Man on the Moon, who knows the answers to all of life's questions. Inspired by these stories, Minli sets off on an extraordinary journey to find the Old Man on the Moon to ask him how she can change her family's fortune. She encounters an assorted cast of characters and magical creatures along the way, including a dragon who accompanies her on her quest for the ultimate answer. Grace Lin, author of the beloved Year of the Dog and Year of the Rat returns with a wondrous story of adventure, faith, and friendship. A fantasy crossed with Chinese folklore, Where the Mountain Meets the Moon is a timeless story reminiscent of The Wizard of Oz and Kelly Barnhill's The Girl Who Drank the Moon. Her beautiful illustrations, printed in full-color, accompany the text throughout. Once again, she has created a charming, engaging book for young readers.

This introductory text provides coverage of both static and dynamic fields. There are references to computer visualisation (Mathcad) and computation throughout the text, and there are Mathcad electronic books available free on the Internet to help students visualise electromagnetic fields. Important equations are highlighted in the text, and there are examples and problems throughout, with answers to the problems at the back of the book.

Originally published as a separate book packaged inside The NoMad Cookbook, this revised and stand-alone edition of The NoMad Cocktail Book features more than 100 additional recipes, a service manual explaining the art of drink-making according to the NoMad, and 30 new full-color cocktail illustrations. Organized by type of beverage from aperitifs and classics to light, dark, and soft cocktails and syrups/infusions, this comprehensive guide shares the secrets of bar director Leo Robitschek's award-winning cocktail program. The NoMad Bar celebrates classically focused cocktails, while delving into new arenas such as festive, large-format drinks and a selection of reserve cocktails crafted with rare spirits.

'I've long wished perfumery to be taken seriously as an art, and for scent critics to be as fierce as opera critics, and for the wearers of certain "fragrances" to be hissed in public, while others are cheered. This year has brought Perfumes: The Guide by Luca Turin and Tania Sanchez, which I breathed in, rather than read, in one delighted gulp.' Hilary Mantel, Guardian Perfumes: The Guide is the culmination of Turin's lifelong obsession and rare scientific flair and Sanchez's stylish and devoted blogging about every scent that she's ever loved and loathed. Together they make a fine and utterly persuasive argument for the unrecognised craft of perfume-making. Perfume writing has certainly never been this honest, compelling or downright entertaining.

The Soul of Rumi is renowned poet Coleman Barks' first major assemblage of newly translated Rumi poems since his bestselling The Essential Rumi. Coleman Barks presents entirely new translations of Rumi's poems, published for the first time in The Soul of Rumi. The poems range over the breadth of Rumi's themes: silence, emptiness, play, God, peace, grief, sexuality, music, to name just a few. But the focus is on the ecstatic experience of human and divine love and their inseparability, conveyed with Rumi's signature passion, daring, and insights into the human heart and the heart's longings.
