Some 28 million people in America and 350 million people worldwide live with hearing loss. How do these people and their families cope? What are their experiences of pain, humor, and hope? What support do medicine and technology now offer them, and what is on the horizon? In this engaging and practical book, David Myers, who has himself suffered gradual hearing loss, explores the problems faced by the hard of hearing at home and at work and provides information on the new technology and groundbreaking surgical procedures that are available. Drawing on both his own experiences and his expertise as a social psychologist, Myers recounts how he has coped with hearing loss and how he has incorporated technological aids into his life. The family and friends of the hard of hearing also face adjustments. Myers addresses their situation and provides advice for them on how best to alert loved ones to a hearing problem, persuade them to seek assistance, and encourage them to adjust to and use hearing aids.

This edition contains the following changes: Hundreds of new research citations representing the most exciting and important new discoveries in our field. Organizational changes based on changes in the field. For example, the heavily revised consciousness modules now follow the neuroscience modules and are titled Consciousness and the Two-Track Mind to reflect the dual-processing and cognitive neuroscience themes. Fine-tuned writing with countless small and large improvements in the way concepts are presented, supported by the input and creative ideas of hundreds of contributing instructors, students, and friends. A sharp new art program that teaches more effectively. Continually improving coverage of cultural and gender diversity issues.

An introduction to psychology course. The author's updating and integrated use of the SQ3R learning system (Survey, Question, Read, Rehearse, Review) help to make the text accessible. A comprehensive supplements package is available to help both students and instructors.

In this edition, the author once again weaves an inviting and compelling narrative that speaks to ALL of your students regardless of background or intended major. And with Connect Social Psychology and LearnSmart, students are able to create a personalized learning plan helping them be more efficient and effective learners. With LearnSmart, students know what they know and master what they don't know and faculty are able to move to more in-depth classroom discussions. Through examples and applications as well as marginal quotations from across the breadth of the liberal arts and sciences, Myers draws students into the field of social psychology. At the same time, Myers is also in tune with the ever-changing state of social psychology research. Research Close-Up and Inside Story features throughout the book provide deeper exposure to key research and researchers. Marginal quotations, examples and applications throughout each chapter, and the concluding Applying Social Psychology chapters all ensure that regardless of your students' interests and future plans, Social Psychology will engage them.

Connecting Social Psychology to the world around us. Social Psychology introduces students to the science of us: how our thoughts, feelings, and behaviors are influenced by the world we live in. In this edition, esteemed author David Myers is joined by respected psychology professor and generational differences researcher Jean Twenge in presenting an integrated learning program designed for today's students. The new edition integrates SmartBook, a personalized learning program, offering students the insight they need to study smarter and improve classroom results.
