Can we really memorize anything? The answer is, ||Yes we can!! From Guinness World Record holders (for conducting the largest maths class on memorizing times tables till 99) Aditi Singhal and Sudhir Singhal comes a book that will serve as a manual to explore the immense power of your memory through a scientific yet simple approach. It will: || Explain concepts with simple illustrations || While teaching you memory techniques, it will also discuss their application in real life, like memorizing appointments, presentations, names and faces, long answers, spellings, formulae, vocabulary, foreign languages and general information || Give the scientific interpretation of ancient memory-enhancing practices that will be particularly useful for students, teachers, professors, doctors, managers, marketings and other professionals as well as the common man Following the unparalleled success of How to Become a Human Calculator, Aditi Singhal and Sudhir Singhal turn their hands to helping you master the right method to input any information using which you can easily memorize anything and, more important, recall it whenever required.

This book has been written for people who work in organizations or for themselves. This book is for those who would like to make a change. It is for those who think they can learn quickly and would like to work on something new. It would help the people who make a choice to help others, or themselves, by solving problems. Whether you are a student, someone who works in an organization, or a CEO, after reading this book, you would gain recipes to enhance your success. Today, no matter where you work and no matter what work you do, you are facing several challenges in your organization. I am not going to solve your problems, but I am going to give you a roadmap for solving them yourself. I am not going to think for you, but I am going to make you think and think hard. I am going to ask you a few questions to help determine what may work and what may not. I am going to give you models of efficiency and success. I am going to ask you to think about them and come up with remedies for your own problems. Every problem is unique, and every recipe for success is different. But success begins with one word: think.

Unleash the hidden power of your mind It's there in all of us. A mental resource we don't think much about. Memory. And now there's a way to master its power. ... Through Harry Lorayne and Jerry Lucas's simple, fail-safe memory system, you can become more effective, more imaginative, and more powerful at work, at school, in sports, and at play. || Read with speed and greater understanding. || File phone numbers, data, figures, and appointments right in your head. || Send those birthday and anniversary cards on time. || Learn foreign words and phrases with ease. || Shine in the classroom and shorten study hours. || Dominate social situations: Remember and use important personal details. Begin today. The change in your life will be unforgettable

Is this book for you? Do you agree that the outcome of any test depends on the ability to recall information at the right time? Isn't it also important that you recall the information within the set time? How good are you are remembering facts when you need them the most? Would you like to improve your present memory by 10 times your present capacity? And would you like to remember 50 digit numbers easily? And names? If your answers have been 'yes' this book is definitely for you. Memory is the foundation of intelligence. Your ability to think, analyze, compute, and be creative depends on memory. In these pages are the keys to a jumbo memory. Make memory your best friend, your ally, and your winning card. Read this and shine!

This book contains all the 3861 words, meanings, and for most words, memorable sentence fragments exactly as used in our powerful Super IQ 7 Mind Machine based GRE Vocab Builder system. The words are given in bold (example, the words belabor and buttress below). The meaning is given after the equal sign (=) following a word. The words are not necessarily in alphabetical order. We have used the US spellings. The British spelling of a word, when different from the US spelling, is given in bracket after BRITISH as shown for the word belabor below. USE gives a sentence fragment carefully chosen for memory. When no sentence fragment is given, a * is shown as in the word buttress below. belabor (BRITISH = labour) = to assail verbally, to insist repeatedly or harp on USE = belabor a point buttress = support USE = * Raj Bapna is a former Intel California software engineer and founder of www.MindMachineLab.com. He has been creating innovative courses for students for the past 20 years to help them get ahead in exams and tests.

Useful for School students, teachers, and professionals and a must for those appearing for competitive exams like UPSC, MBA, MCA, GMAT, GRE, CSAT, etc. ||After reading this book, solving 5378942639 + 8120594263, finding the square of 99975, the cube root of 704969 or calculating any day from 500 years would be child's play
