Rates consumer products from stereos to food processors

Buying a Range Rover, Land Rover Discovery or Defender can be just the start of a wonderful adventure. This book describes the options available to the owner, from big wheels and suspension lifts, under-body protection and tuning ideas, right up to how to convert the car into a high speed racer or an international expedition vehicle. with clear, jargon-free

instructions, advice on events like family weekend green-laning, international expeditions and full-on competition, accompanied by colour photographs throughout, this is the definitive guide to getting the most from these exciting vehicles.

The Triumph Stag was a two-door, four-seat, luxury touring car, designed to be Triumph's flagship model for the 1970s. Styled by prolific designer Giovanni Michelotti, and engineered by Harry Webster and Spen King, the Stag had no direct competitors throughout its production life and was the blueprint for the many four-seat convertibles on the market today. It was in production from 1970 through to 1977, but suffered from a lack of development and gained a reputation for engine problems caused by poor cooling. Triumph Stag - An Enthusiast's Guide explores the history, design and development of the car, taking a special look at the Stag's unique Triumph V8 engine - and how Stag owners today have largely solved the cooling problems. It also covers owners' experiences, specialist modifications and improvements, and the car clubs that help the Stag remain one of the most popular classic cars in the UK. Superbly illustrated with 121 colour photographs.
