The need for specific legal arrangements governing ships in distress and places of refuge is one of the most topical problems in both public and private maritime law. The headline grabbing shipping disasters involving the loss of the Erika (1999) and the Prestige (2002) attracted the attention of the IMO, the Comité Maritime International, the European Union, national maritime authorities around the globe and the maritime industry in general. Ultimately the impact of pollution on local economies and the

environment was enough to arouse the concern of a broad swathe of public opinion. Places of Refuge provides clarity on:

- The scope of the right of access
- The conditions under which coastal authorities may deny access
- The liability of authorities granting or denying access
- The basis and the conditions of financial securities
- The obligation to establish contingency plans

Drawing from a variety of libraries and archives, this collection brings together material to illustrate the history of the development of trade unionism and industrial relations. It spans the period from the early journeymen's trade societies as they emerged in the 18th-Century through to the end of the First World War. Part II, Volume 7 spans
