specification, agent-oriented software engineering, reuse, negotiation and communication, large complex systems, e-business, and applications.

This book focuses upon the role of the sales force in today's changing world and how to design a sales force for strategic advantage. It includes sections on how to assess the current sales force design and how to implement change and covers customer segmentation, market strategy, structuring and sizing, alignment, metrics and managing change.

This book contains the proceedings of the Fourth International Workshop on

Download File PDF Role Application Engineer

Product Family Engineering, PFE-4, held in Bilbao, Spain, October 3-5, 2001. This workshop was the fourth in a series started in 1996, with the same subject, software product-family engineering. Proceedings of the second and third workshops have been published as LNCS 1429 and LNCS 1951. The workshops were organized within co-operation projects of European industry, the first two by ARES (Esprit IV 20.477) 1995-1999. This project had three industrial and three academic partners, and focused on software architectures for product families. Some of the partners continued in ITEA project 99005, ESAPS (1999-2001). ITEA is the software development program (?!2023) within the European Eureka initiative.

Download File PDF Role Application Engineer

ITEA projects last for two years and ESAPS' was succeeded by CAFE (ITEA ip00004), which started in 2001 and will terminate in 2003. This workshop was initially prepared within ESAPS and the preparation continued in CAFE. Due to the attacks in the USA of September 11, several people were not able to attend and therefore did not show up. However, we have included their submissions in these proceedings. The session chair presented these submissions, and their inputs were used during the discussions. It was planned that Henk Obbink be workshop chair, and Linda Northrop and Sergio Bandinelli be co-chairs. However, because of personal circumstances Henk Obbink was not able to leave

Download File PDF Role Application Engineer

home during the workshop.
Moreover both co-chairs had
already enough other duties.
Therefore the chairing duties
were taken over by the program
chair, Frank van der Linden.
