The words of advice collected here are part of the ancient tradition of religious texts known as terma that were hidden in secret places during the first spread of Buddhism in Tibet in the ninth century.

Vajrayogini Sadhana and Commentary, a translation of an oral explanation given by Geshe Ngawang Dhargay in Seattle, Washington, USA, in 1981. Traditionally, the practice of tantra is supposed to kept secret, and it is to be noted that this book is intended purely for those who have received the proper initiations. However, as His Holiness the Dalai Lama has advised, the great misunderstandings to

which tantra is often subject to are more harmful than the partial lifting of such secrecy, so there is a necessity for books to be made available which contain authentic explanations. Venerable Geshe Ngawang Dhargyey was born in Kham Province of Tibet in 1928 and attended Sera Je Monastery. He escaped from Tibet in 1959 to India where he was able to continue teaching and meditating. He received his Geshe Lharampa degree in 1969. In 1971 His Holiness the Fourteenth Dalai Lama asked him to teach Dharma courses to westerners at the Library of Tibetan Works and Archives in Dharamsala. In 1986 he left for Dunedin, New Zealand, where he was the resident Spiritual Director at the Thargye Dharma Center until his death in 1996.

A thorough and sparkling translation of an essential commentary on one of the most

profound practices of Tibetan Buddhism. The Extremely Secret Dakini of Naropa has become the basis for almost every subsequent Vajrayogini commentary in the Gelug tradition. Kyabje Pabongkha ' s commentary is both very thorough in its presentation and deeply inspiring, providing rich detail on essential elements of Vajrayogini practice: - all eleven yogas of the generation stage - the transference of consciousness - tsok offering - left-sided conduct - and many other auxiliary practices There is also a stunning explanation of the completion stage that provides many extraordinarily profound methods unique to the practice of Vajrayogini. The second half of the book contains several sadhanas for the practice of Vajrayogini, including six-session guru yoga as well as two sadhanas on the transference of consciousness. Vajrayogini is a tantric goddess from the highest class of Buddhist tantras who manifests the ultimate development of wisdom and compassion. Her practice is prevalent today among practitioners of Tibetan Buddhism. This ground-breaking book delves into the origins of Vajrayogini, charting her evolution in India and examining her roots in the Cakrasamvara tantra and in Indian tradition relating to siva. The focus of this work is the Guhyasamayasadhanamala, a collection of forty-six sadhanas, or practice texts. Written on palm leaves in Sanskrit and preserved since the twelfth century, this diverse collection, composed by various authors, reveals a multitude of forms of the goddess, each of which is described and

illustrated here. One of the sadhanas, the Vajravaraḥi Sadhana by Umapatideva, depicts Vajrayogini at the center of a mandala of thirty-seven different goddesses, and is here presented in full translation alongside a Sanskrit edition. Elizabeth English provides extensive explanation and annotation of this representative text. Sixteen pages of stunning color plates not only enhance the study but bring the goddess to life.

India, both Buddhist and non-Buddhist, Thukén discusses in detail the entire range of Tibetan traditions, with separate chapters on the Nyingma, Kadam, Kagyü, Shijé, Sakya, Jonang, Geluk, and Bön schools. He then describes the major traditions of China – Confucian, Daoist, and Buddhist – as well as those of Mongolia, Khotan, and Shambhala. Not content with simply describing and analyzing doctrines, Thukén traces the historical development of the various traditions. While he favors his own Geluk school, Thukén treats the views of other traditions with sympathy and respect, sometimes even defending them against criticisms from his own tradition. Eloquent, erudite, and informative, *The Crystal Mirror of Philosophical Systems* is evidence that serious and balanced study of the history of religions has not been a monopoly of Western scholarship.
