Sterile Processing Workbook

ARS research is organized into National Programs. Within each National Program are research projects. Listed below are the National Programs and research projects currently conducted at this location.

Designed for the Certifying Central Sterile Supply Technologist. Our program is a comprehensive, interactive question data base designed from actual examination questions to both test your knowledge and to direct your studies towards critical Central Supply Technologist Certification Examination must know information. Our team of medical professionals have put together several series of test questions in all formats that you as a potential student will best learn from, with the tests ranging from simple terminology to the more advanced technical aspects of your career.

The Admission Test Series prepares students for entrance examinations into college, graduate and professional school as well as candidates for professional certification and licensure. The Certified and Registered Central Service Technician (CRCST) Passbook(R) prepares you by sharpening the skills and abilities necessary to succeed on your upcoming entrance exam. It provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to: cleaning, decontamination and disinfection; preparation and packaging; sterilization; medical equipment; documents and records; and more.

Introduces the most fundamental concepts, equipment, and principles of compounding. Begins with an introduction to the most common drug delivery systems, essential compounding equipment, standard packaging forms, and demonstrates non-sterile compounding techniques in action.

Basics of SPD Textbook covers the foundations of the SPD profession, with easy to ready text. Each chapter builds upon the next, so all of the material relates. The Basics of SPD Workbook reinforces the readings in the textbook.
