The long-awaited finale of Z.A. Recht's "action-packed zombie extravaganza" (Ryan C. Thomas) that began with the acclaimed novels Plague of the Dead and Thunder and Ashes. . . . THE MORNINGSTAR STRAIN WAS THE END OF THE WORLD. In the wake of the zombie apocalypse, two separate bands of survivors journey across a decimated America, each with the desperate goal of finding the cure for the virulent plague that threatens the existence of humankind—or what's left of it. Now it's up to these inheritors of the future to outlive their waking nightmare, any way they can. BUT FOR THESE SURVIVORS, IT IS JUST THE BEGINNING. One group includes a brilliant virologist; for the other, an immune soldier proves invaluable. Battling infected and marauding raiders at every turn, the teams soon uncover the devious plans of Sawyer, an agent of the Chairman of the Reunited States of America, who believes that Dr. Anna Demilio already has the cure, and he will stop at nothing to find her. Now, with the salvation of the world and their own souls on the line, how far will the survivors go to emerge victorious?

The Morningstar virus. Those infected suffer delirium, fever, violent behaviour ... and a hundred per cent mortality rate. But that's not the worst of it. The victims return from the dead to walk the earth. And when a massive military operation fails to contain the plague of the living dead, it escalates into a worldwide pandemic. On one side of the world, thousands of miles from home, a battle-hardened general surveys the remnants of his command: a young medic, a veteran photographer, a rash private, and dozens of refugees -- all of them his responsibility. Meanwhile in the United States, an army colonel discovers the darker side of Morningstar and collaborates with a well-known journalist to leak the information to the public...

The "zombie apocalypse," once on the fringes of horror, has become one of the most buzzworthy genres in popular culture. Now, in Plague of the Dead, Z.A. Recht delivers an intelligent, gripping thriller that will leave both new and die-hard zombie fans breathless. The end begins with a viral outbreak unlike anything mankind has ever encountered before. The infected are subject to delirium, fever, a dramatic increase in violent behavior, and a one-hundred percent mortality rate. But it doesn't end there. The victims return from death to walk the earth. When a massive military operation fails to contain the living dead it escalates into a global pandemic. In one fell swoop, the necessities of life become much more basic. Gone are petty everyday concerns. Gone are the amenities of civilized life. Yet a single law of nature remains: Live, or die. Kill, or be killed. On one side of the world, a battle-hardened general surveys the remnants of his command: a young medic, a veteran photographer, a brash Private, and dozens of refugees, all are his responsibility—all thousands of miles from home. Back in the United States, an Army colonel discovers the darker side of Morningstar virus and begins to collaborate with a well-known journalist to leak the information to the public...and the Morningstar Saga has begun.

The end begins with a viral outbreak unlike anything mankind as ever encountered before. The Morningstar Saga has begun.

Zombies have devoured mankind. And the few survivors would be better off dead because a clan of vampires, bloodthirsty and vicious, have captured the remnants of humanity for livestock. In an apartment building barricaded with wrecked cars, concrete rubble, and snarls of barbwire, the vampires breed lobotomized amputees. Ann, the secret blood slave of the maternity doctor, has evaded this fate, yet her sister Ellie has not. Though she longs to escape, Ann cannot abandon her sibling and unborn niece. But she may have to if she wants to survive. The living dead have found a weak spot in the barricade and are quickly invading the building. Shade, the vampire monarch, defends her kingdom, while Frost, Shade's general, plans to migrate to an island where they can breed and hunt humans. In their path stands a legion of corpses, just now evolving into something far more lethal, something with tentacles--and that's just the beginning.

The RSA is finally eliminated. Looking to the future, President Sherman finds an elite squad of soldiers—the Hunters—who he will use for strategic missions as part of restoring the stability of the country. Their first mission will take them to the heart of a city ravaged by Morningstar...but not everyone agrees with Sherman's vision for the future. Threatened by new enemies on all sides, will Sherman and his allies be able to survive long enough to see the Hunters succeed on their inaugural mission? Or will dissident factions looking to release the deadly Morningstar Strain back out into the world succeed where others have failed, and bring humanity back to its knees?

A LOT CAN CHANGE IN THREE MONTHS: Wars can be decided, nations can be forged . . . or entire species can be brought to the brink of annihilation. The Morningstar virus has swept the face of the planet, infecting billions. Its hosts rampage; its victims don't die, but are reborn as cannibalistic shamblers. SCATTERED ACROSS THE WORLD, EMBATTLED GROUPS HAVE PERSEVERED. For some, survival is the pinnacle of achievement. Others hoard goods and weapons. And still others leverage power over the remnants of humanity with a mysterious cure. Francis Sherman and Anna Demilio want only a vaccine, but to find it they must cross a ravaged landscape of the infected and the lawless living. THE BULK OF THE STORM HAS PASSED, leaving echoing thunder and softly drifting ashes. But for the survivors, the peril remains, and the search for a cure is just beginning. . . . Returning to the terrifying vision of his "awesome zombie novel" (David Moody) Plague of the Dead, Z.A. Recht "will once again make you turn your lights on" (J.L. Bourne) with this chilling apocalyptic thriller.

The Morningstar Strain has been let loose—is there any way to stop it? When there is an industrial accident some of the Morningstar Strain is actually released. The doctor who discovered the strain and her assistant will have to fight their way through Sprinters and Shamblers to save themselves, the vaccine, and the base. Then they discover that it wasn't an accident at all—somebody inside the facility did it on purpose. The war with the RSA and the infected is far from over. This is the fourth book in Z.A. Recht's The Morningstar Strain series, written by Brad Munson.

Saturday 09:11 Hours: A blast rocks a London hospital and thousands are dead or injured... 10:09 Hours: Joe Ledger arrives on scene to investigate. The horror is unlike anything he has ever seen. Compelled by grief and rage, Joe rejoins the DMS and within hours is attacked by a hit-team of assassins and sent on a suicide mission into a viral hot zone during an Ebola outbreak. Soon Joe Ledger and the Department of Military Sciences begin tearing down the veils of deception to uncover a vast and powerful secret society using weaponized versions of the Ten Plagues of Egypt to destabilize world economies and profit from the resulting chaos. Millions will die unless Joe Ledger meets the this powerful new enemy on their own terms as he fights terror with terror.

In Jonathan Maberry's The Dragon Factory, Joe Ledger and the DMS (Department of Military Sciences) face their deadliest threat yet when they go up against two competing groups of geneticists bent on world domination. One side is creating exotic transgenic monsters and genetically enhanced mercenary armies; the other is using 21st century technology to continue the Nazi Master Race program begun by Josef Mengele. Both sides want to see the DMS destroyed, and they've drawn first blood. Neither side is prepared for Joe Ledger as he leads Echo Team to war under a black flag.
