In *The Charisma Myth*, Olivia Fox Cabane offered a groundbreaking approach to becoming more charismatic. Now she teams up with Judah Pollack to reveal how anyone can train their brain to have more eureka insights. The creative mode in your brain is like a butterfly. It's beautiful and erratic, hard to catch and highly valued as a result. If you want to capture it, you need a net. Enter the executive mode, the task-oriented network in your brain that help you tie your shoes, run a meeting, or pitch a client. To succeed, you need both modes to work together--your inner butterfly to be active and free, but your inner net to be ready to spring at the right time and create that "aha!" moment. But is there any way to trigger these insights, beyond dumb luck? Thanks to recent neuroscience discoveries, we can now explain these breakthrough moments--and also induce them through a series of specific practices. It turns out there's a hidden pattern to all these seemingly random breakthrough ideas. From Achimedes' iconic moment in the bathtub to designer Adam Cheyer's idea for Siri, accidental breakthroughs throughout history share a common origin story. In this book, you will learn to master the skills that will transform your brain into a consistent generator of insights. Drawing on their extensive coaching and training practice with top Silicon Valley firms, Cabane and Pollack provide a step-by-step process for accessing the part of the brain that produces breakthroughs and systematically removing internal blocks. Their tactics range from simple to zany, such as: · Imagine an alternate universe where gravity doesn't exist, and the social and legal rules that govern it. · Map Disney's Pocahontas story onto James Cameron's Avatar. · Rid yourself of imposter syndrome through mental exercises. · Literally change your perspective by climbing a tree. · Stimulate your butterfly mode by watching a foreign film without subtitles. By trying the exercises in this book, readers will emerge with a powerful new capacity for breakthrough thinking.

You will also discover that : contrary to popular belief, charisma is learned through simple exercises; everyone can become charismatic; the effects of charisma in daily life are real and noticeable. Charisma is not something innate: one can learn to be charismatic. Proof of this is the numerous studies carried out on the subject and cited in the notes for those curious who would like to take a look at them. These studies tend to show that charismatic people are always more listened to than others. People tend to prefer to work for a charismatic boss rather than for someone who is not, and they tend to place more value and importance on the work done for the former. Charisma affects how others perceive us and influences people's behaviour. The world of work is, according to the author, one of the areas where charisma can make a real difference. For example, banks will be quicker to give a loan to a charismatic young entrepreneur than to a non-charismatic one. The world of work is not the only environment in which the benefits of charisma can be enjoyed. A mother can use charisma to influence people around her, such as teachers: charisma is not only reserved for an elite, politicians or celebrities.
