This literal survival guide for new pilots identifies "the killing zone," the 40-250 flight hours during which unseasoned aviators are likely to commit lethal mistakes. Presents the statistics of how many pilots will die in the zone within a year; calls attention to the eight top pilot killers (such as "VFR into IFR," "Takeoff and Climb"); and maps strategies for avoiding,

From the moment his first novel was published, Larry Heinemann joined the ranks of the great chroniclers of the Vietnam conflict--Philip Caputo, Tim O'Brien, and Gustav Hasford. In the stripped-down, unsullied patois of an ordinary soldier, draftee Philip Dosier tells the story of his war. Straight

from high school, too young to vote or buy himself a drink, he enters a world of mud and heat, blood and body counts, ambushes and firefights. It is here that he embarks on the brutal downward path to wisdom that awaits every soldier. In the tradition of Naked and the Dead and The Thin Red Line, Close Quarters is the harrowing story of how a decent kid from Chicago endures an extraordinary trial-- and returns profoundly altered to a world on the threshold of change.

"This book will help ensure that at the end of your life, you don't share the #1 regret of dying people: 'I wish I'd had the courage to live a life true to myself, not the life others expected of me'."--Page 4 of cover.

A man who was once licensed to kill, and in 1995 is qualifying to be a barrister, tells his story of a life in the Paras, the South African Special Forces, the SAS and the RUC.

THIS GUT-WRENCHING FIRSTHAND ACCOUNT OF THE WAR IS A CLASSIC IN THE ANNALS OF VIETNAM LITERATURE. "Guns up!" was the battle cry that sent machine gunners racing forward with their M60s to mow down the enemy, hoping that this wasn't the day they would meet their deaths. Marine Johnnie Clark heard that the life expectancy of a machine gunner in Vietnam was seven to ten seconds after a firefight began. Johnnie was only eighteen when he got there, at the height of the bloody Tet Offensive at Hue, and he quickly realized the grim statistic held a

chilling truth. The Marines who fought and bled and died were ordinary men, many still teenagers, but the selfless bravery they showed day after day in a nightmarish jungle war made them true heroes. This new edition of *Guns Up!*, filled with photographs and updated information about those harrowing battles, also contains the real names of these extraordinary warriors and details of their lives after the war. The book's continuing success is a tribute to the raw courage and sacrifice of the United States Marines.

Twenty years after he served in Vietnam--and lost his left arm in combat there--Downs returned to Vietnam with the Vessey mission to offer humanitarian aid to his former enemies. This is his personal odyssey from hatred to a deeper

The Killing Zone: The United States Wages Cold War in Latin America, Second Edition, is a comprehensive yet concise analysis of U.S. policies in Latin America during the Cold War. Author Stephen G. Rabe, a leading authority in the field, argues that the sense of joy and accomplishment that accompanied the end of the Cold War, the liberation of Eastern Europe, and the collapse of the Soviet Union must be tempered by the realization that Latin Americans paid a ghastly price during the Cold War. Dictatorship, authoritarianism, the methodical abuse of human rights, and campaigns of state terrorism characterized life in Latin America between 1945 and 1989. Countries such as

Argentina, Brazil, Chile, El Salvador, and Guatemala endured appalling levels of political violence. The U.S. repeatedly intervened in the internal affairs of Latin American nations in the name of anticommunism, destabilizing constitutional governments and aiding and abetting those who murdered and tortured. Rabe supplements his strong, provocative historical narrative with stories about the fates of ordinary Latin Americans, an extensive chronology, a series of evocative photographs, and an annotated bibliography.
