This major new edition of the Oxford Junior Illustrated Dictionary has a contemporary, bright, child-friendly design. There are over 400 new 3D illustrations, photographs, diagrams and full appendices to build vocabulary. Accessible and easy to use, written to ensure meanings are clear, parts of speech and inflections are given in full.

This paperback edition of the Oxford Junior Dictionary features over 10,000 entries, words and phrases, in alphabetical order, in a clear and accessible design. Each entry contains simple, easy-to-read numbered meanings, and word classes, and example sentences. Tinted panels throughout the text focus on overused words, words belonging to the same family, and key language topics (such as connectives or apostrophes). Another unique feature is the example sentences by well-known children's authors, such as Dick King-Smith, Jacqueline Wilson, and Roald Dahl. These show the words actually in use to reinforce meaning but they also hook children in to using language effectively. Unique to Oxford, they take children beyond looking up a word for spelling or meaning - and into thinking about reading and writing independently. The full alphabet appears on every page with a dark blue tab on the letter of the page - plus the dictionary quartiles in light blue. Together, these are invaluable navigation tools for children practising their alphabet skills. Guidewords also appear on every page. Extra material at the back is accurately levelled for the curriculum at this age. It includes information for spelling success, punctuation, simple grammar, key overused words (with alternatives) as well as word origins, prefixes and suffixes.
