People of the Lie: The Hope for Healing Human Evil: M. ...

"People of the lie" are what Peck calls evil people -- those who refuse to acknowledge their own sin, who scapegoat other people instead, not just occasionally but routinely. Peck believes evil people are both common and ordinary-looking, more likely to be a church deacon than a psychopath, because they create a respectable veneer that belies their callous, independent hearts.

Probing Human Evil The famous psychiatrist and author of the widely-read book The Road Less Traveled, M. Scott Peck, wrote a lesser-known work in the late 1990 ' s entitled People of the Lie. In it, Peck examined the concept of human evil along with how and why it manifests.

People of the lie - The Christian Post

While they seem to lack any motivation to be good, they intensely desire to appear good. Their "goodness" is all on a level of pretense. It is, in effect, a lie. This is why they are the "people of the lie." Actually, the lie is designed not so much to deceive others as to deceive themselves. They cannot or will not tolerate the pain of self-reproach.

"The patient suddenly resembled a writhing snake of great strength. . . More frightening than the writhing body, however, was the face. The eyes were hooded with lazy reptilian torpor. . ." This is the second bestselling book by Dr M, Scott Peck. Here Dr Scott Peck describes his encounters during psychiatric therapy with patients who are not merely ill but manifesty evil - People of the Lie. This brilliant, disturbing book forces us to confront the darker side of our natures and to recognise that without spiritual (and indeed religious) dimension, modern psychiatry cannot claim to understand human nature or behaviour. It is a worthy successor to The Road Less Travelled.

"So compelling in its exploration of the human psyche, it's as hard to put down as a thriller...such a force of energy, intensity, and straightforwardness.

Read this thought-provoking, critically acclaimed novel (6 starred reviews!!!) from Frances Hardinge, winner of the Costa Book of the Year, Costa Children's Book Award, and Horn Book-Boston Globe Award. Faith Sunderly leads a double life. To most people, she is reliable, dull, trustworthy—a proper young lady who knows her place as inferior to men. But inside, Faith is full of questions and curiosity, and she cannot resist mysteries: an unattended envelope, an unlocked door. She knows secrets no one suspects her of knowing. She knows that her family moved to the close-knit island of Vane because her famous scientist father was fleeing a reputation-destroying scandal. And she knows, when her father is discovered dead shortly thereafter, that he was murdered. In pursuit of justice and revenge, Faith hunts through her father ' s possessions and discovers a strange tree. The tree bears fruit only when she whispers a lie to it. The fruit of the tree, when eaten, delivers a hidden truth. The tree might hold the key to her father ' s murder—or it may lure the murderer directly to Faith herself. Frances Hardinge is the author of many acclaimed novels, including Cuckoo Song, which earned five starred reviews.

Golf. It's the ultimate head game. And when nothing but the best advice will do, along comes M. Scott Peck, M.D., the celebrated psychiatrist and author of the best-selling self-help book of all time, The Road Less Traveled. In Golf and the Spirit, M. Scott Peck writes a book for beginners and masters alike—and even for nongolfers. It goes beyond mechanics to explore the deeper issues, ways of successfully managing the emotional, psychological, and spiritual aspects of this most wonderful, maddening, deflating, and inspiring game. Playing side by side with M. Scott Peck on an imaginary course of his own design—complete with illustrations of each hole—you will come to see the profound truths in this seemingly simple game. Appreciate that life is not linear. Come to understand your own anger and how to heal that which gets in your way. Accept the gifts of humility. Appreciate kenosis, the process by which the self empties itself of self. Benefit from teachers. Know that in weakness often there is strength. Realize that to experience the blessings of golf and life fully, you must accept the divinity that underlies all things. Like the best-selling volumes of Harvey Penick and Michael Murphy, Golf and the Spirit makes a unique contribution to the literature of golf and life. It goes beyond the body to address the heart and soul of the game, creating a rare opportunity for transformation in the lives of its readers, both on and off the fairway. It seems to me the human condition is most basically that we are willful creatures living in a world that, much of the time, doesn't behave the way we want it to. We live in the tension between our will and reality. Sometimes with great effort and expense, we can change reality or bend it to our will. At other times—also with great effort and expertise—it is we who must change by coming to accept the limitations of the world and of ourselves. How we do this—how we deal with the hazards of life—is quite akin to how we deal with the hazards of a golf course. Sooner or later golfers who stick with the game long enough will almost always come to see it as a metaphor for life. But the word metaphor fails to do justice to all that golf has to teach us. I would go even further and say that, in its own way, golf is life and, not only that, life condensed. If we choose to use it as such, I believe that golf, next to marriage and parenthood, can routinely be the greatest of life's learning opportunities.

" Courageous and inspiring. " —Karen Armstrong, author of The Case for God " James Carroll takes us to the heart of one of the great crises of our times. " —Stephen Greenblatt, author of The Swerve An eloquent memoir by a former priest and National Book Award–winning writer who traces the roots of the Catholic sexual abuse scandal back to the power structure of the Church itself, as he explores his own crisis of faith and journey to renewal James Carroll weaves together the story of his quest to understand his personal beliefs and his relationship to the Catholic Church with the history of the Church itself. From his first awakening of faith as a boy to his gradual disillusionment as a Catholic, Carroll offers a razor-sharp examination both of himself and of how the Church became an institution that places power and dominance over people through an all-male clergy. Carroll argues that a male-supremacist clericalism is both the root cause and the ongoing enabler of the sexual abuse crisis. The power structure of clericalism poses an existential threat to the Church and compromises the ability of even a progressive pope like Pope Francis to advance change in an institution accountable only to itself. Carroll traces this dilemma back to the Roman Empire and the Middle Ages, when Scripture, Jesus Christ, and His teachings were reinterpreted as the Church became an empire. In a deeply personal re-examination of self, Carroll grapples with his own feelings of being chosen, his experiences as a priest, and the moments of doubt that made him leave the priesthood and embark on a long personal journey toward renewal—including his tenure as an op-ed columnist at The Boston Globe writing about sexual abuse in the Church. Ultimately, Carroll calls on the Church and all reform-minded Catholics to revive the culture from within by embracing anti-clerical, anti-misogynist resistance and staying grounded in the spirit of love that is the essential truth at the heart of Christian belief and Christian life.

Three former CIA officers share their techniques for lie detection, outlining methods for identifying deceptiveness as revealed by verbal and non-verbal behaviors from facial expressions and grooming gestures to invoking religion and using qualifying language.

A Washington Post Notable Book of the Year As seen on the Netflix series Explained From the best-selling author of Cosmopolitanism comes this revealing exploration of how the collective identities that shape our polarized world are riddled with contradiction. Who do you think you are? That ' s a question bound up in another: What do you think you are? Gender. Religion. Race. Nationality. Class. Culture. Such affiliations give contours to our sense of self, and shape our polarized world. Yet the collective identities they spawn are riddled with contradictions, and cratered with falsehoods. Kwame Anthony Appiah ' s The Lies That Bind is an incandescent exploration of the nature and history of the identities that define us. It challenges our assumptions about how identities work. We all know there are conflicts between identities, but Appiah shows how identities are created by conflict. Religion, he demonstrates, gains power because it isn ' t primarily about belief. Our everyday notions of race are the detritus of discarded nineteenth-century science. Our cherished concept of the sovereign nation —of self-rule—is incoherent and unstable. Class systems can become entrenched by efforts to reform them. Even the very idea of Western culture is a shimmering mirage. From Anton Wilhelm Amo, the eighteenth-century African child who miraculously became an eminent European philosopher before retiring back to Africa, to Italo Svevo, the literary marvel who changed citizenship without leaving home, to Appiah ' s own father, Joseph, an anticolonial firebrand who was ready to give his life for a nation that did not yet exist, Appiah interweaves keen-edged argument with vibrant narratives to expose the myths behind our collective identities. These " mistaken identities, " Appiah explains, can fuel some of our worst atrocities—from chattel slavery to genocide. And yet, he argues that social identities aren ' t something we can simply do away with. They can usher in moral progress and bring significance to our lives by connecting the small scale of our daily existence with larger movements, causes, and concerns. Elaborating a bold and clarifying new theory of identity, The Lies That Bind is a ringing philosophical statement for the anxious, conflict-ridden twenty-first century. This book will transform the way we think about who—and what—" we " are.
