A collection of gripping short stories themed around fear and hope written by internationally acclaimed children's author Brian Falkner. A boy helps his sister disguise her birthmark on her first day of school. A seventeen-year-old awakens to find himself trapped in an elderly body. A teenage girl discovers her boyfriend has a life-threatening virus the day after they share their first kiss. A high school student tries to communicate to his hospitalised brother who is in a vegetative state. Brian Falkner serves up bite-sized tales of fear – fear of rejection, fear of dying, fear of disease, fear of the unknown, fear of exclusion, fear of being caught and fear of embarrassment – showing how that stubborn seed of hope hungers our darkest moments.

What if the power to control the most terrifying animals in history fell into the

hands of one of the most brilliant and ferocious military leaders of all time? Battlesaurus reimagines the 1815 Battle of Waterloo as something other than a crushing defeat for the French emperor Napoléon Bonaparte, when he unleashes a terrible secret weapon—giant carnivorous survivors from pre-history—on his unsuspecting British and Prussian adversaries. In this world, smaller “saur” are an everyday danger in the forests of Europe, and the Americas are a forbidden zone roamed by the largest and most deadly animals ever to walk the earth. But in his quest for power, Napoléon has found a way to turn these giant dinosaurs into nineteenth-century weapons of mass destruction. Only Willem Verheyen, an outsider living in hiding in the tiny village of Gaillemarde, has the power to ruin the tyrant’s plans. And Napoléon will stop at nothing to find him. War is coming, and young Willem is no longer safe, for Gaillemarde is just a stone’s throw from the fields of Waterloo—fields which will soon run red with blood. Battlesaurus: Rampage at Waterloo by Brian Falkner is the first in a thrilling alternate historical fantasy duology, which concludes with the sequel, Battlesaurus: Clash of Empires. “Part historical fiction, part dinosaur fantasy mash-up, this book will appeal to history buffs and dinosaur fanatics alike. The battle scenes between Napoléon’s army and the British are depicted in incredible detail, making readers feel as if they are right in the midst of the fight . . . The first of a promising duology that readers will find thrilling and positively addicting.” —School Library Journal “This alternative history asks, what if Napoléon won the battle at Waterloo . . . The novel quickly ramps up to suspense, immersing the reader in the swiftly moving plot.

Characters are very well drawn, capturing the reader's sympathy. With an ending wide open for a sequel, complete with a plot-thickening cliff-hanger, one can only hope that Falkner is a swift writer." —Booklist

"In the wake of Napoleon's crushing victory at Waterloo, the vicious French general Marc Thibault and his brigade of giant carnivorous battlesaurs have struck terror across Europe"--

Young Joe is living in pre-WWII Berlin, with his British father and NZ mother, attending school and witnessing the excitement of his friends who are enthusiastically joining the Hitler Youth Movement. Joe feels uncomfortable with the growing mistreatment of local Jews, and after the arrest of his father as a spy, he is forced to escape from Berlin with his mother. Joe is separated from his mother and evacuated to New Zealand, and, while war looms in Europe, he is frustrated by his distance from the action, and his inability to do anything about finding his father. After a harrowing route back to Europe, Joe attempts to infiltrate the Hitler Youth movement in Germany while at the same time searching for his mother and father in wartime Berlin.
