The Road to Woodstock From the Man Behind the Legendary Festival by Michael Lang (Harper Collins 2009)(781.660797) was a huge disappointment. What a weak, weak book. The author apparently believes that his personal back story is what the reader wants to hear.

Michael Lang (producer) - Wikipedia

In late 1969, Jimi Hendrix wrote a poem celebrating Woodstock, saying with words what his music had in August: "500,000 halos outshined the mud and history. We washed and drank in God's tears of joy. And for once, and for everyone, the truth was not still a mystery.".

The Road to Woodstock by Lang, Michael - Amazon.ae

On the afternoon of August 15, 1969, Richie Havens took the stage at the Woodstock Music and Art Fair, welcoming a crowd of several hundred thousand to the green fields of Max Yasgur's farm. Havens was the first act - the legendary festival, years in the making, was finally beginning. Nothing would be the same after. But the story of the legendary festival begins with Michael Lang, a kid out ...

Provides a day-by-day, act-by-act account of the landmark music festival, with details on the pre-festival organization and preparation, interviews and quotes from participants, and discussion of media coverage and the festival's legacy.

.

An award-winning broadcaster's authoritative fortieth anniversary tribute to the first Woodstock event draws on original interviews with such performers as Roger Daltry, Joan Baez, and David Crosby to place the gathering against a backdrop of period history and culture.

"Celebrating its 45th anniversary in 2014, the Woodstock Music Festival defined a generation. Yet, there was much more than peace and love driving that long weekend the summer of 1969. In [this book], ... Bob Spitz gives readers a behind-the-scenes look at the making of Woodstock, from its inception and the incredible musicians that performed to its scandals and the darker side of the peace movement. With a new introduction, as well as maps, set lists, and a breakdown of all the personalities involved, Barefoot in Babylon is a must-read for anyone who was there—or wishes they were"—Amazon.com.

An epic joyride through three history-making tours in 1973 that defined rock and roll superstardom—the money, the access, the excess—forevermore. The Who's Quadrophenia. Led Zeppelin's Houses of the Holy. Alice Cooper's Billion Dollar Babies. These three unprecedented tours—and the albums that inspired them—were the most ambitious of these artists' careers, and they forever changed the landscape of rock and roll: the economics, the privileges, and the very essence of the concert experience. On these juggernauts, rock gods—and their entourages—were born, along with unimaginable overindulgence and the legendary flameouts. Tour buses were traded for private jets, arenas replaced theaters, and performances transmogrified into over-the-top, operatic spectacles. As the sixties ended and the seventies began, an altogether more cynical era took hold: peace, love, and understanding gave way to sex, drugs, and rock and roll. But the decade didn't become the seventies, acclaimed journalist Michael Walker writes, until 1973, a historic and mind-bogglingly prolific year for rock and roll that saw the release of countless classic albums, from The Dark Side of the Moon to Goat's Head Soup; Goodbye Yellow Brnck Road; Sweetly from Asbury Park, N.J.; and The Wild, the Innocent & the E Street Shuffle. Aerosmith, Queen, and Lynryd Skynyrd released their debut albums. The Roxy and CBGB opened their doors. Every major act of the era—from Fleetwood Mac to Black Sabbath—was on the road that summer, but of them all, Walker writes, it was The Who, Led Zeppelin, and Alice Cooper who emerged as the game changers. Walker revisits each of these three tours in memorable, all-access detail: he goes backstage, onto the jets, and into the limos, where every conceivable wish could be granted. He wedges himself into the sweaty throng of teenage fans (Walker himself was one of them) who suddenly were an economic force to be reckoned with, and he vividly describes how a decade's worth of decadence was squeezed into twelve heart-pounding, backbreaking, and rule-defying months that redefined, for our modern times, the business of superstardom. Praise for What You Want is in the Limo "Required reading . . . 1973 is a turning point in popular music — the border between hippie-ethos '60s rock 'n' roll and conspicuous-consumption excess '70s rock."—New York Post "Loud and boisterous . . . Like a good vinyl-era single, it's over before it wears out its welcome. You may even want to flip it over and start again when you're finished."—Fort Worth Star-Telegram "You don't have to love the music or personas of the three bands highlighted here . . . to appreciate the vital roles that all three played in creating the modern rock star. . . . [Walker] is convincing and entertaining in explaining why 1973 was a seminal year in rock."—The Daily Beast "[There's] so much rock n' roll history packed inside."—GQ "Very well written . . . It gives an intellectual immersion into these bands' lives."—Led-Zeppelin.org "[Walker] argues for [1973] as a tipping point, when big tours—and bigger money—became a defining ethos in rock music."—NPR

Presents recollections from more than forty of the film's primary crew members and festival musicians

As the fiftieth anniversary of the Woodstock festival nears, Woodstock 1969 stands out for its singular voice. Photojournalist Jason Lauré followed his unerring instinct for being in the right place at the crucial moment. He and coauthor Ettagale Blauer trace the historic events that preceded the festival and then envelop the reader with photographs of the headline rock stars that performed during the landmark three-day concert including the Who, Janis Joplin, Grace Slick of Jefferson Airplane, and Santana. Threading his way back and forth from the stage, through a sea of happy audience members, Jason Lauré photographed the communal life that was an essential part of the phenomenon that was Woodstock. Never intrusive, yet working close-up, he managed to capture these innocent moments in the pond and in the woods with the same compassion and intimacy he brought to his coverage of all the crucial events of the era. After Woodstock, he photographed such legends as Jimi Hendrix, Tina Turner, and Jim Morrison of the Doors. Woodstock 1969 gives the reader an appreciation of the lasting impact of the festival, showing the way it changed the lives of all who experienced it. It served as the high point of the counterculture that started in earnest in the Summer of Love, and also as a leading influence in the decades that followed. The book concludes with a look at Woodstock's lasting legacy, from Greenwich Village and the rock scene of the Fillmore East to the establishment of Earth Day and the burgeoning environmental movement.

Think "Woodstock" and the mind turns to the seminal 1969 festival that crowned a seismic decade of sex, drugs, and rock 'n' roll. But the town of Woodstock, New York, the original planned venue of the concert, is located over 60 miles from the site to which the fabled half a million flocked. Long before the landmark music festival usurped the name, Woodstock-the tiny Catskills town where Bob Dylan holed up after his infamous 1966 motorcycle accident-was already a key location in the '60s rock landscape. In Small Town Talk, Barney Hoskyns re-creates Woodstock's community of brilliant dysfunctional musicians, scheming dealers, and opportunistic hippie capitalists drawn to the area by Dylan and his sidekicks from the Band. Central to the book's narrative is the broodingly powerful presence of Albert Grossman, manager of Dylan, the Band, Janis Joplin, Paul Butterfield, and Todd Rundgren-and the Big Daddy of a personal fiefdom in Bearsville that encompassed studios, restaurants, and his own record label. Intertwined in the story are the Woodstock experiences and associations of artists as diverse as Van Morrison, Jimi Hendrix, Tim Hardin, Karen Dalton, and Bobby Charles (whose immortal song-portrait of Woodstock gives the book its title). Drawing on numerous first-hand interviews with the remaining key players in the scene-and on the period when he lived there himself in the 1990s-Hoskyns has produced an East Coast companion to his bestselling L.A. canyon classic Hotel California. This is a richly absorbing study of a vital music scene in a revolutionary time and place.

A richly illustrated panel discussion transcript comprises the first part of the book. It is followed by a roots of Woodstock photo essay that highlights such Woodstock writers and performers as Bob Dylan, Jimi Hendrix, Janis Joplin, Allen Ginsberg, Pete Seeger, and Richie Havens. In addition it chronicles the Arts and Crafts origins of the town from the 1800s, and highlights the town's hallowed tradition of weekend-long musical concerts. These began in the early 1900s with Woodstock's Maverick festivals, and stretched up through the countercultural Sound-Outs of the 1960s. Bob Fass, a Woodstock Sound-Out emcee and host of WBAF's Radio Unnameable for close to fifty years has contributed a brilliant and evocative foreword to the book. Also included are a compendium of important Woodstock players, a map of historic 1960s locations in the Woodstock area, and 115 images many of them rare, vintage photos of the Woodstock music and art scenes.
