Caught in the Act : Catching Che **The Traitor In Tunnel Agency**

The Traitor in the Tunnel is by far the best installment of The Agency series; with the character introductions and early foundation cases out of the way, Mary finally (literally) moves onwards and upwards - in the world and as an agent of The Agency - faces her past and hitherto mysterious Chinese heritage and really makes some serious relationship progress with former beau (of sorts) James Easton. Hurrah.

The third book in the adventures of Victorian spy Mary Quinn amps up the camp The stakes are high as the Agency series moves to the very top. The Traitor in the Tunnel sees Mary go undercover as a maid in Buckingham Palace. Pilfering from the palace.

Get steeped in suspense, romance, and high Victorian intrigue as Mary goes undercover at Buckingham Palace — and learns a startling secret at the Tower of London. Queen Victoria has a little problem: there's a petty thief at work in Buckingham Palace. Charged with discretion, the Agency puts quickwitted Mary Quinn on the case, where she must pose as a domestic while fending off the attentions of a feckless Prince of Wales. But when the prince witnesses the murder of one of his friends in an opium den, the potential for scandal looms large. And Mary faces an even more unsettling possibility: the accused killer, a Chinese sailor imprisoned in the Tower of London, shares a name with her long-lost father. Meanwhile, engineer James Easton, Mary's onetime paramour, is at work shoring up the sewers beneath the palace, where an unexpected tunnel seems to be very much in use. Can Mary and James trust each other (and put their simmering feelings aside) long enough to solve the mystery and protect the Royal Family? Hoist on your waders for Mary's most personal case yet, where the stakes couldn't be

higher — and she has everything to lose.

"Queen Victoria has a problem: there's a petty thief at work in Buckingham Palace. The Agency, the all-female detective unit, assigns quick-witted Mary Quinn to the case. Posing as a palace maid and fending off the attentions of the Prince of Wales are challenging enough, but when the prince witnesses a murder, Mary's case becomes anything but petty. Engineer and former flame James Easton has an assignment in the sewers, where someone is making illicit use of the tunnels. Mary will need James's help if she's going to catch a thief, solve a murder and avert disaster--Page [4] of cover.

When Mary Quinn is ordered to work undercover after a petty thief steals from Buckingham Palace, she receives attention from a prince, wonders at a murder suspect's shared name with her father, and struggles with her feelings for James Easton.

A follow-up to *A Spy in the House* finds mid-19th-century orphan Mary Quinn tackling a latest case in which her efforts to discover a murderer's identity force her to relive harrowing childhood experiences.

Rescued from the gallows in 1850s London, young orphan and thief Mary Quinn is offered a place at Miss Scrimshaw's Academy for Girls where she is trained to be part of an all-female investigative unit called The Agency and, at age seventeen, she infiltrates a rich merchant's home in hopes of tracing his missing cargo ships.

The astonishing true story of the Berlin Tunnel, one of the West's greatest espionage operations of the Cold War—and the dangerous Soviet mole who betrayed it. Its code name was "Operation Gold," a wildly audacious CIA plan to construct a clandestine tunnel into East Berlin to tap into critical KGB and Soviet military telecommunication lines. The tunnel, crossing the border between the American and Soviet sectors, would have to be 1,500 feet (the length of the Empire State Building) with state-of-the-art equipment, built and operated literally under the feet of their Cold War adversaries. Success would provide the CIA and the British Secret Intelligence Service access to a vast treasure of intelligence. Exposure might spark a dangerous confrontation with the Soviets. Yet as the Allies were burrowing into the German soil, a traitor, code-named Agent Diamond by his Soviet handlers, was burrowing into the operation itself. . . . *Betrayal in Berlin* is Steve Vogel's heart pounding account of the operation. He vividly recreates post-war Berlin, a scarred, shadowy snake pit with thousands of spies and innumerable cover stories. It is also the most vivid account of George Blake, perhaps the most damaging mole of the Cold War. Drawing upon years of archival research, secret documents, and rare interviews with Blake himself, Vogel has crafted a true-life spy story as thrilling as the novels of John le Carré and Len Deighton. *Betrayal in Berlin* includes 24 photos and two maps.

NEW YORK TIMES BESTSELLER Edward Snowden, the man who risked everything to expose the US government's system of mass surveillance, reveals for the first time the story of his life, including how he helped to build that system and what motivated him to try to bring it down. In 2013, twenty-nine-year-old Edward Snowden shocked the world when he broke with the American intelligence establishment and revealed that the United States government was secretly pursuing the means to collect every single phone call, text message, and email. The result would be an unprecedented system of mass surveillance with the ability to pry into the private lives of every person on earth. Six years later, Snowden reveals for the very first time how he helped to build this system and why he was moved to expose it. Spanning the bucolic Beltway suburbs of his childhood and the clandestine CIA and NSA postings of his adulthood, *Permanent Record* is the extraordinary account of a bright young man who grew up online—a man who became a spy, a whistleblower, and, in exile, the Internet's conscience. Written with wit, grace, passion, and an unflinching candor, *Permanent Record* is a crucial memoir of our digital age and destined to be a classic.

Before becoming the first female private investigator in Botswana, eight-year-old Precious Ramotswa tracks down a thief who has been stealing her classmates' snacks.

Queen Victoria has a little problem: a series of petty thefts from Buckingham Palace. She calls the Agency for help, and they put Mary Quinn - on her first case as a full-fledged agent - on the case. Going undercover as a domestic servant, Mary's assignment seems simple enough. But a scandal threatens to tear the Royal Family apart.

Angry over his family's recent move and current enforced holiday in Halifax, twelve-year-old Laz Berenger rebels against a guided tour of the Citadel and sets out to explore on his own. In one dark tunnel, his St. Christopher medal burns suddenly hot. There's a strange smell, and Laz blacks out. When he wakes up, everything happens at once. A sword is put to his throat. Men who look like extras from *Pirates of the Caribbean* hand him over to a ship's captain who strips him and takes his medal. He is declared a French spy. Laz realizes, to his horror, that it is 1745 and he is trapped in time. These English colonists, still loyal to King George, are at war with the French. To earn his freedom, Laz must promise to spy on the French at the fortification of Louisbourg. But once in Louisbourg, Laz earns a job as runner to the kind Commander Morpain and learns to love both the man and the town. How will Laz find a way to betray the inhabitants of Louisbourg? How else can he hope to earn back his St. Christopher medal, which is surely his key to returning to his own time? The award-winning author of *The Hill* and *Graffiti Knight* has written an enthralling, swash-buckling time-slip adventure for middle-grade readers centered on a fascinating period in North American history.
