Lemon-Aid New and Used Cars and Trucks 1990-2015 steers the confused and anxious buyer through the purchase of new and used vehicles unlike any other car-and-truck book on the market. "Dr. Phil," Canada's best-known automotive expert for more than 42 years, pulls no punches.

The bonds of love... The bonds of matrimony... The bonds between husband and wife... Let's face it-some bonds are made to be broken. Here, for the first time ever, are four stories from today's most provocative authors that take the classic idea of the "faerie tale wedding" and give it a swift kick in the bustle.

Written by 'a sublimely elegant historical novelist as addictive as crack' - Daily Telegraph The first book in John Lawton's Inspector Troy series, selected by Time magazine as one of 'Six Detective Series to Savour' alongside Michael Connelly and Donna Leon. The Blitz, London, 1944. As the Luftwaffe make their last desperate assault on the city, Londoners take to the shelters once again and eagerly await the signal for D-Day. In the East End children lead police to a charred, dismembered corpse buried in a bombsite. The victim is German and it soon becomes clear that this is no ordinary murder. For Russian emigré Detective-Sergeant Troy it is the start of a manhunt which will lead him into a world of military intelligence and corruption in high places; a manhunt in which Troy is both the hunter and the hunted.

First Published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

Looks at contemporary political issues and also the more enduring underlying questions. This title covers three fundamental premises: politics is a pervasive force in modern society; government is too important to be left in the hands of a few; and everyone has both the opportunity and the obligation to participate in public life in a democracy.

With three months remaining of her marriage of convenience, Savannah is ready to say goodbye to her spoiled rich boy of a husband. He's annoying and argumentative and used to always getting his way. Sure, he's hot. And maybe occasionally a little bit sweet. But she doesn't want to stay married to him. Not at all. He needed a wife for a year so he could inherit his grandmother's fortune, and she needed to pay off her family's debts. That's all their marriage has ever been about. So she really needs to stop falling into bed with him.

""The report is essential reading for policy makers, government workers, and academics pursuing the goal of equitable, sustainable development across the world."" - N. R. Narayana Murthy, Chairman and Chief Mentor Infosys Technologies Ltd. Information and communication technology (ICT) is rapidly evolving, changing rich and poor societies alike. It has become a powerful tool for participating in the global economy and for offering new opportunities for development efforts. ICT can and should advance economic growth and reduce poverty in developing countries. It has been 20 years since the first telephone operator was privatized, a little over 10 since the World Wide Web emerged, and 5 since the telecommunications bubble burst. How have the ICT sector and its role in development evolved? What have we learned? How can we move forward? Information and Communications for Development 2006: Global Trends and Policies contains lessons from both developed and developing countries. It examines the roles of the public and private sectors, identifying the challenges and the benefits of adopting and expanding ICT use. The report assesses topics essential to building an information society, including investment, access, diffusion, and country policies and strategies. Assessing what has worked, what hasn't, and why, this report is an invaluable guide for understanding how to capture the benefits of ICT around the world."
