Treat yourself to a collection of fun-to-stitch softies with personality to spare. Crochet everything from a friendly dog and funny frog to a hot air balloon. Learn to make whimsical toys with puppet-style open mouths--including a grinning birthday cake--sure to tickle kids of all ages! 20 patterns in three themes: party time, animal friends, and the great outdoors Start with easy projects in each section and progress as you succeed Be amazed at all the designs you can create with a few simple stitches

Say no to sweet sayings! From aging disgracefully to Christmas chaos, these projects put the “ cross ” in cross stitch. Naughty but Nice Cross Stitch features a collection of fifty fun and sassy cross stitch sayings to remind you not to take life so seriously. Each themed chapter presents the ideal answer to the endless demands on a woman ’ s time—husbands, chores, children and work. Whatever the crisis, these witticisms are sure to put a smile on your face! A great selection of project ideas accompany the sayings—from hanging signs to framed pictures and cell phone covers—so that you can share the fun with family and friends. “ Perfect for the sassy crafter, simple images with comical phrases which make perfect cards and presents for that person in your life who enjoys a laugh. ” —Baking and Making in Bristol “ Chock a block full of fun patterns this book will give you a chuckle. ” —Trish Alan Designs

“ Down instructs crafters how to create tiny and whimsical fairylike animals . . . can add a welcome dollop of playfulness to any crafter ’ s library. ” —Publishers Weekly An exquisite collection of toy sewing patterns to make stuffed animals to treasure! These stunning animal dolls are easy to sew and then embellish with simple hand embroidery stitches to beautiful effect. The dolls and their cute outfits all use small amounts of fabric, so are great for using up scraps. With step-by step instructions and full guidance on the embroidery stitches and full-size pattern pieces to trace from the page, this super-accessible book will help you make future heirlooms that will stay in the family for generations. “ A great resource for making unique dolls to be treasured for years to come. ” —A Comfy Chair

Are you looking for really cool macram é designs to knot but have no clue which to make? Do you want a simplified, step by step process to creating awesome macram é projects in no time? If so, then read on...

How to Use Bloom's Taxonomy in the Classroom: The Complete Guide is your one-stop shop for improving the quality of the lessons, questions, activities and assessments you plan. Never before has there been such a detailed, practical analysis of the taxonomy - of how it works, why it works and how you can use it to raise achievement in your classroom

“ Bruce Schneier ’ s amazing book is the best overview of privacy and security ever written. ” —Clay Shirky “ Bruce Schneier ’ s amazing book is the best overview of privacy and security ever written. ” —Clay Shirky Your cell phone provider tracks your location and knows who ’ s with you. Your online and in-store purchasing patterns are recorded, and reveal if you're unemployed, sick, or pregnant. Your e-mails and texts expose your intimate and casual friends. Google knows what you ’ re thinking because it saves your private searches. Facebook can determine your sexual orientation without you ever mentioning it. The powers that surveil us do more than simply store this information. Corporations use surveillance to manipulate not only the news articles and advertisements we each see, but also the prices we ’ re offered. Governments use surveillance to discriminate, censor, chill free speech, and put people in danger worldwide. And both sides share this information with each other or, even worse, lose it to cybercriminals in huge data breaches. Much of this is voluntary: we cooperate with corporate surveillance because it promises us convenience, and we submit to government surveillance because it promises us protection. The result is a mass surveillance society of our own making. But have we given up more than we ’ ve gained? In Data and Goliath, security expert Bruce Schneier offers another path, one that values both security and privacy. He brings his bestseller up-to-date with a new preface covering the latest developments, and then shows us exactly what we can do to reform government surveillance programs, shake up surveillance-based business models, and protect our individual privacy. You'll never look at your phone, your computer, your credit cards, or even your car in the same way again.
