A wordless picture book about using imagination to overcome shyness

The Yellow Wallpaper is considered a groundbreaking feminist masterpiece and one of the most exquisite horror stories in American literature. Charlotte Perkins Gilman was America's leading feminist intellectual of the early twentieth century. In addition to her masterpiece 'The Yellow Wallpaper', this new edition also includes a selection of her best short stories. This work is considered an important early work in feminist literature and one which explored issues about women's health, both physical and mental.

Terence Conran has always believed that objects - and surroundings - that are plain, simple and useful

are the key to easy living. By being practical and performing well over time, they are as much the antidote to superficial styling as they are to the shoddy and second-rate. Applied to the home as a whole, this discerning approach results in interiors that are effortlessly stylish, confident and timeless, with plenty of room for the expression of personal taste. Plain Simple Useful is organized according to the main activities that take place at home. Inspirational interiors, many of which are Conran's own, and a number of projects designed by him exclusively for this book, provide all the guidance you need to tailor-make your own storage. The book also features iconic examples of classic designs that will enhance any home, as well as a peek behind the closed doors of those well-ordered cupboards, larders and other stowing spaces that contribute so much to easy living.

Known primarily for her classic and haunting story "The Yellow Wallpaper," Charlotte Perkins Gilman was an enormously influential American feminist and sociologist. Her early-twentieth-century writings continue to inspire writers and activists today. This collection includes selections from both her fiction and nonfiction work. In addition to the title story, there are seven short stories collected here that combine humor, anger, and startling vision to suggest how women's "place" in society should be changed to benefit all. The nonfiction selections are from Gilman's *The Man-Made World: Our Androcentric Culture* and her masterpiece, *Women And Economics*, which was translated into seven languages and established her international reputation as a theorist. Also included is a delightful excerpt from Gilman's utopian novel, *Herland*, an acidly funny tale about three American male explorers who stumble into an all-female society and begin their odyssey by insisting, "This is a civilized country . . . there must be men." Gilman's analyses of economic and women's issues are as incisive and relevant today as they were upon their original publication. This volume is an unprecedented opportunity to rediscover a powerful American writer.

The Yellow Wallpaper is a psychological short story about a Victorian woman on the edge of a nervous breakdown. When her husband deems she needs a "rest cure" after the birth of their child, they rent an abandoned colonial mansion with a "queer air" about it. The narrator's claustrophobic room has unpleasant, oppressive yellow wallpaper which incites her descent into madness. Charlotte Gilman's stylistic short story is an important early American feminist text, illustrating patriarchal attitudes in the early 20th century toward women's health, both physical and mental.
