Franklin Delano Roosevelt stands astride American history like a colossus, having pulled the nation out of the Great Depression and led it to victory in the Second World War. Elected to four terms as president, he transformed an inward-looking country into the greatest superpower the world had ever known. Only Abraham Lincoln did more to save America from destruction. But FDR is such a large figure that historians tend to take him as part of the landscape, focusing on smaller aspects of his achievements or carping about where he ought to have done things differently. Few have tried to assess the totality of FDR's life and career. Conrad Black rises to the challenge. In this magisterial biography, Black makes the case that FDR was the most important person of the twentieth century, transforming his nation and the world through his unparalleled skill as a domestic politician, war leader, strategist, and global visionary--all of which he accomplished despite a physical infirmity that could easily have ended his public life at age thirty-nine. Black also takes on the great critics of FDR, especially those who accuse him of betraying the West at Yalta. Black opens a new chapter in our understanding of this great man, whose example is even more inspiring as a new generation embarks on its own rendezvous with destiny.

of our nation's entire history" —Nigel Hamilton, Boston Globe "Meticulously researched and authoritative" —Douglas Brinkley, The Washington Post "A workmanlike addition to the literature on Roosevelt." —David Nasaw, The New York Times "Dallek offers an FDR relevant to our sharply divided nation" —Michael Kazin "Will rank among the standard biographies of its subject" —Publishers Weekly A one-volume biography of Roosevelt by the #1 New York Times bestselling biographer of JFK, focusing on his career as an incomparable politician, uniter, and deal maker In an era of such great national divisiveness, there could be no more timely biography of one of our greatest presidents than one that focuses on his unparalleled political ability as a uniter and consensus maker. Robert Dallek's Franklin D. Roosevelt: A Political Life takes a fresh look at the many compelling questions that have attracted all his biographers: how did a man who came from so privileged a background become the greatest presidential champion of the country's needy? How did someone who never won recognition for his intellect foster revolutionary changes in the country's economic and social institutions? How did Roosevelt work such a profound change in the country's foreign relations? For FDR, politics was a far more interesting and fulfilling pursuit than the management of family fortunes or the indulgence of personal pleasure, and by the time he became president, he had commanded the love and affection of millions of people. While all Roosevelt's biographers agree that the onset of polio at the age of thirty-nine endowed him with a much greater sense of humanity, Dallek sees the affliction as an insufficient explanation for his transformation into a masterful

politician who would win an unprecedented four presidential terms, initiate landmark reforms that changed the American industrial system, and transform an isolationist country into an international superpower. Dallek attributes FDR's success to two remarkable political insights. First, unlike any other president, he understood that effectiveness in the American political system depended on building a national consensus and commanding stable long-term popular support. Second, he made the presidency the central, most influential institution in modern America's political system. In addressing the country's international and domestic problems, Roosevelt recognized the vital importance of remaining closely attentive to the full range of public sentiment around policy-making decisions—perhaps FDR's most enduring lesson in effective leadership.

A biography of Franklin Delano Roosevelt examines his political leadership in a dark time of Depression and war, his championship of the poor, his revolutionary New Deal legislation, and his legacy for the future.

Traces the life of the thirty-second president, Franklin D. Roosevelt, who led the country through the Depression and the Second World War.

In this classic of American biography, based upon thousands of original documents, many never previously published, the prize-winning historian Geoffrey C. Ward tells the dramatic story of Franklin Roosevelt's unlikely rise from cloistered youth to the

brink of the presidency with a richness of detail and vivid sense of time, place, and personality usually found only in fiction. In these pages, FDR comes alive as a fond but absent father and an often unfeeling husband--the story of Eleanor Roosevelt's struggle to build a life independent of him is chronicled in full--as well as a charming but pampered patrician trying to find his way in the sweaty world of everyday politics and all-too willing willing to abandon allies and jettison principle if he thinks it will help him move up the political ladder. But somehow he also finds within himself the courage and resourcefulness to come back from a paralysis that would have crushed a less resilient man and then go on to meet and master the two gravest crises of his time.

"While Robert Dallek's [book takes] a fresh look at the many compelling questions that have attracted all his biographers--How did a man who came from so privileged a background become the greatest presidential champion of the country's needy? How did someone who never won recognition for his intellect foster revolutionary changes in the country's economic and social institutions? How did Roosevelt work such a profound change in the country's foreign relations?--the focus ... is on Roosevelt as a man dedicated to public affairs, a master politician who skillfully and cannily used the presidency to advance a remarkable national agenda"--Provided by publisher.

A New York Times 2016 Notable Book “By far the most enigmatic leading figure” of World War II. That’s how the British military historian John Keegan described Franklin D. Roosevelt, who frequently left his contemporaries guessing, never more so than at the end of his life. Here, in a hugely insightful account, a prizewinning author and journalist untangles the narrative threads of Roosevelt’s final months, showing how he juggled the strategic, political, and personal choices he faced as the war, his presidency, and his life raced in tandem to their climax. The story has been told piecemeal but never like this, with a close focus on Roosevelt himself and his hopes for a stable international order after the war, and how these led him into a prolonged courtship of Joseph Stalin, the Soviet dictator, involving secret, arduous journeys to Tehran and the Crimea. In between, as the war entered its final phase, came the thunderbolt of a dire medical diagnosis, raising urgent questions about the ability of the longest-serving president to stand for a fourth term at a time when he had little choice. Neither his family nor top figures in his administration were informed of his diagnosis, let alone the public or his closest ally, Winston Churchill. With D-Day looming, Roosevelt took a month off on a plantation in the south where he was examined daily by a navy cardiologist, then waited two more months before finally announcing, on the eve of his party’s

convention, that he'd be a candidate. A political grand master still, he manipulated the selection of a new running mate, with an eye to a possible succession, displaying some of his old vigor and wit in a winning campaign. With precision and compassion, Joseph Lelyveld examines the choices Roosevelt faced, shining new light on his state of mind, preoccupations, and motives, both as leader of the wartime alliance and in his personal life. Confronting his own mortality, Roosevelt operated in the belief that he had a duty to see the war through to the end, telling himself he could always resign if he found he couldn't carry on. Lelyveld delivers an incisive portrait of this deliberately inscrutable man, a consummate leader to the very last.
