Zo\u00e9 Martinique was just your average, single female, past 25, looking for love and/or exciting job opportunities. Then life handed her the dubious ability to travel outside of her body at will—which she turned into a career, hiring herself out as a literal spook. But one night things get out of hand while she is out-of-body: Zo\u00e9 witnesses a murder. What's worse, the killer is also a traveler—who not only sees her but tries to pursue her. To save herself, Zo\u00e9 must somehow guide the very handsome detective assigned to the case to the truth without revealing herself. And with the help of her semi-psychic mom, a pair of gay ghosts, and her best friend (a Goth techno witch), she also has to figure out exactly who—and what—the murderer is, before he finds her and puts an end to her traveling—permanently.

Wraith Zo\u00e9 Martinique must use her special powers to restore cosmic balance and discover why the bodies of Revenants--beings from another planes--are showing up all over Atlanta completely drained of blood. Original.

SOME SECRETS CAN KILL YOU... Kazuma Tetsu is a technomancer—one of the rare people who can manipulate the Matrix without technology, using only the power of their mind. But he's on a more personal mission—he's searching for his missing sister, Hitori. Following her trail leads him into a tangled web of corp execs, mercenaries, and double-crossing rogues—usually just another day in the Sixth World. But as Kazuma digs deeper, he uncovers a plot that could bring about the end of the world. Upon seeing a simulation of the Resonances Realms accessible to technomancers, an A.I. declares it will use the realms to ascend to a higher plane of consciousness. The intelligence's goal seems impossible, until an imprisoned and manipulated group of technomancers accesses dissonance to open a gateway to a new realm—possibly the heaven the A.I. seeks. But opening this dissonant hole in the Matrix could trigger global disaster, and it's up to a team of shadowrunners, including a couple of denizens of the fabled JackPoint, to free the trapped technomancers and stop the Dark Resonance before it destroys the entire Matrix—and worse...

Next in the series that's 'art paranormal whodunit, part urban fantasy' (Publishers Weekly) by the author of Wraith. Zo\u00e9 Martinique has the extraordinary ability to travel outside her body at will. When she is drawn into an investigation of a series of bizarre murders, in which the victims

are missing body parts, Zoë hopes to help her boyfriend, Atlanta homicide detective Daniel Frasier, stop the killer-one she's sure is from the darkest levels of the astral plane-without letting him find out about her special abilities. Then danger strikes close to home when Zoë's mother disappears, and Zoë must use all the powers at her command to save her-even though Zoë knows that, in doing so, she may make herself into something no longer entirely human.

My name is Ace Bissett, and I'm a paranormal detective that doesn't believe in magic. Or at least, I didn't before I met them. The day I inherited my aunt's old house, everything changed. One moment, I was convinced that magic was a hoax. The next, I'm surrounded by four winged, fanged, ridiculously hot guys who are definitely nothuman, and who insist that I'm the only one who can break the curse that binds them to the night. I know I should run far, far away from this hot mess, but there's a connection between us I can't deny. I'm seeing things I can't explain, feeling things that don't make sense. The detective in me has never been able to resist a mystery, and this one is just begging me to dig in. But all that will have to wait, because there's a new threat stalking my city. One with a taste for blood and bone, unable to be killed or captured by normal human means. It's a good thing I've got four new roommates to help me hunt them down. But even if I didn't, I'd figure out a way. Because I never give up. I never give in. And I always protect what's mine. Don't miss this delicious new reverse harem series. A tough, snarky heroine and an aloof dragon shifter must work together to save Seattle in this new urban fantasy series.

The next chapter in the investigations of Zo Martinique (next chapter after Wraith). While hiding in Daniel Frasier's hospital room, Zo receives a request by a restaurant hostess to investigate an accident allegedly caused by ghosts, or more precisely, Shadow People. But when Zo and Rhonda agree to check it out, they discover the hostess that requested them is missing and her ex-boyfriend, Dags McConnell, none other than the pantsless bartender Zo once met at Fad's, has taken an interest in helping them. Especially after having seen the Shadow People himself. But this time Zo's up against an old Magician and his coven determined to gain power over an ancient book of spells.

After losing her powers, Zo learns that only a traumatic experience can bring the Wraith back. And now, to get out-of-body, Zo will have to look for big, dangerous trouble--fast.

Detective Jack Frost has everything he ever wanted; a good job, a fianc who loves him, and his first child on the way. His future looks bright and promising. But when an unprecedented heat wave turns December into the hottest month on record, a victim with Jack's face propels him into the reality of myth and legend as the body count rises.

As the Crimson Guard marches toward Quon Tali, the heart of the Malazan Empire, many citizens, and even her own generals and mages, wonder whether Empress Laseen is losing her grip on power.
