Split into five distinct parts; the first part of the manual covers selected areas of the substantive law as it relates to professional negligence cases, building on students' existing knowledge of the Civil Procedural Rules and examining the pre-action protocols and the role of the case management conference. Part III reflects the pragmatic approach adopted by the manual, and has been specifically designed to develop students' drafting skills to the advanced level required in professional negligence cases. The final part of the manual focuses on providing students with an introduction to the key people and bodies whom they will commonly encounter in this area of practice. It also provides
