Immunofluorescence, a suitable laboratory method for the microscopic demonstration of antigens and antibodies in biological materials, useable, for example, to provide evidence for the pathogenesis of disease in histological or cytological preparations and for tumour cell differentiation. For this reason immunofluorescence has a decisive role as the method of choice for the diagnosis of auto-immune diseases. This primer on immunofluorescence techniques, which first appeared in 1979, is a richly illustrated handbook suitable for everyday practical work in the laboratory, useable as both an introduction to the subject as well as an atlas. In hardly any other area of medicine are there so many new findings to report. The second edition of this book is concerned not only with the detection methods which now form an essential and established part of diagnostic techniques, but also with the most recent research results such as the discovery of antibodies against Auerbach's plexus and against podocytes...

It is the 15th Century. At the dawn of the Ming Dynasty, three women's path will cross. And of their journey, a tale will be born. An imperial concubine, a Persian traveler and a mysterious storyteller. Three women: One story. This is BEIJING. A city seething with mystery and royal intrigue. Once a palace orphan, the wilful Min Li has only ever sought to please, even if that means pleasing Emperor Zhu Di. Now a powerful concubine, Min Li unearths a terrible secret concealed within the walls of Beijing's Imperial city. Driven to despair, she seeks help from her lover, Admiral Zheng He. But this will spark a chain of events that even sets Beijing's palace on fire. Min Li's fate is sealed yet her true enemy is not who she thinks. The Ming Storytellers is a historical tale of 15th century China that sweeps across the palaces of Nanjing and Beijing into the mountainous villages of Yunnan, where a mysterious shaman holds the key to a woman's destiny. Across the oceans, from the bustling bazaars of Southern India to the lush shores of Zanzibar, nothing is what it seems. For the eyes and ears of the Ming Emperor are ever near. ---- A tale of the Far East replete with dark secrets, The Ming Storytellers is set during the early Ming Dynasty, soon after the reconquest of The Middle Kingdom from the Mongols. The Ming Storytellers delves into the political and personal intrigues of the Zhu Imperial family. On the eve of the great Beijing Palace fire and the Ming fleet's sixth expedition, an imperial concubine is swept up by dark forces of obsession and revenge. The Ming Storytellers is a must journey for historical travelers and for those who believe in the bridging between worlds.

Help for troubled marriages, especially for the person whose spouse is seeking a divorce, is here at last. Dealing with emotions, planning, decision-making, and the need to love, this book also contains two chapters excerpted from Love Life for Every Married Couple.

This early work by S. S. Van Dine was originally published in 1934 and we are now republishing it with a brand new introduction. 'The Casino Murder Case' is one of Van Dine's novels of crime and mystery. S. S. Van Dine was born Willard Huntington Wright in Charlottesville, Virginia in 1888. He attended St. Vincent College, Pomona College and Harvard University, but failed to graduate, leaving to cultivate contacts he had made in the literary world. At the age of twenty-one, Wright began his professional writing career as literary editor of the Los Angeles Times. In 1926, Wright published his first S. S. Van Dine novel, The Benson Murder Case. Wright went on to write eleven more mysteries. The first few books about his upper-class amateur sleuth, Philo Vance, were so popular that Wright became wealthy for the first time in his life. His later books declined in popularity as the reading public's tastes in mystery fiction changed, but during the late twenties and early thirties his work was very successful.

Until now, design patterns for the MapReduce framework have been scattered among various research papers, blogs, and books. This handy guide brings together a unique collection of valuable MapReduce patterns that will save you time and effort regardless of the domain, language, or development framework you're using. Each pattern is explained in context, with pitfalls and caveats clearly identified to help you avoid common design mistakes when modeling your big data architecture. This book also provides a complete overview of MapReduce that explains its origins and implementations, and why design patterns are so important. All code examples are written for Hadoop. Summarization patterns: get a top-level view by summarizing and grouping data Filtering patterns: view data subsets such as records generated from one user Data organization patterns: reorganize data to work with other systems, or to make MapReduce analysis easier Join patterns: analyze different datasets together to discover interesting relationships Metapatterns: piece together several patterns to solve multi-stage problems, or to perform several analytics in the same job Input and output patterns: customize the way you use Hadoop to load or store data "A clear exposition of MapReduce programs for common data processing patterns:this book is indispensible for anyone using Hadoop." --Tom White, author of Hadoop: The Definitive Guide
