Today, it is more essential than ever that students develop the knowledge and skills necessary to become college and career ready. There is a nationwide focus on the skills and strategies students need in order to be successful. At the core are the assessments currently in circulation. From the Classroom to the Test: How to Improve Student Achievement on the Summative ELA Assessments is a comprehensive book to help educators of grades 3-8 support students in these efforts. It provides information for adjusting instruction to enhance reading comprehension, close reading, vocabulary development, writing and media skills, speaking and listening, and much more. Sample tests for each grade level rounds out this resource.

This timely new book outlines a whole-school approach to embedding a sustainable model of teaching and learning that puts the learner at the heart of the system. It provides an entire framework for ensuring all students achieve above their expectations; incorporating school vision, teacher professional development, assessment models, school culture, leadership and management, and core classroom practices. It takes what the current research suggests does | and does not | work and builds it into a practical approach that has been tried, tested and proven to work. Each section incorporates the research, a model of how this can be embedded across a school and then a training section that allows senior leaders in schools to teach the skill-set to others to ensure it can be embedded and reviewed. Covering all aspect of teaching and learning including curriculum design, teacher practices, assessment and leadership, the book features: a clear planning framework that is easy to implement; subject based case studies to exemplify good practice; diagrams to clarify and consolidate information; training activities throughout each chapter, also available to download at www.routledge.com/9780415831178. Designed to be used as a training tool for both new and established teachers, this book is essential reading for senior leaders that want to equip their teachers with the skills and knowledge to create a school of outstanding classrooms.

Now in its second edition, Debates in History Teaching remains at the cutting edge of history education. It has been fully updated to take into account the latest developments in policy, research and professional practice. With further exploration into the major issues that history teachers encounter in their daily professional lives, it provides fresh guidance for thinking and practice for teachers within the UK and beyond. Written by a range of experts in history education, chapters cover all the key issues needed for clear thinking and excellent professional action. This book will enable you to reach informed judgements and argue your point of view with deeper theoretical knowledge and understanding. Debates include: What is happening today in history education? What is the purpose of history teaching? What do history teachers need to know? What are the key trends and issues in international contexts? What is the role of evidence in history teaching and learning? How should you make use of ICT in your lessons? Should moral learning be an aim of history education? How should history learning be assessed? Debates in History Teaching remains essential reading for any student or practising teacher engaged in initial training, continuing professional development or Master's-level study.
