From masterfully funny and poignant Jordan Sonnenblick, a story that will have everyone searching for their inner Zen. Meet San Lee, a (sort of) innocent teenager, who moves against his will to a new town. Things get interesting when he (sort of) invents a new past for himself, which makes him incredibly popular. In fact, his whole school starts to (sort of) worship him, just because he (sort of) accidentally gave the impression that he's a reincarnated mystic. When things start to unravel, San needs to find some real wisdom in a hurry. Can he patch things up with his family, save himself from bodily harm, stop being an outcast, and maybe even get the girl?

Whether musician or self-taught recordist, whether at home or in a full-blown studio complex, you'll discover a definitive blueprint for recording within the current realities of the business, without ever losing focus on the core consideration the music itself. As Mixerman writes: "The moment you start to think in musical terms, your recordings will improve a hundredfold." This enhanced multimedia e-book edition brings recordists deeper into the concepts covered in the text. It features over an hour's worth of supplemental videos in which Mixerman demonstrates various recording techniques in a number of recording spaces. The clips provide invaluable insight into what to listen for when choosing gear and placing mics, and Mixerman walks us through all of this in well over an hour of clips. This multimedia eBook is an absolute must-have for anyone who enjoys recording music and wants to get better doing it. "Mixerman has done it again! With his signature humorous and entertaining style, he imparts a world of invaluable information for the aspiring recordist and musician in an easy to absorb (not overly technical) common sense manner." Ron Saint Germain (300+ million in sales, U2, Whitney Houston, 311) " Zen and the Art of Recording describes an approach rather than a recipe. This is important because in the real world nothing works the same way every time. This is an excellent overview of the issues to be considered along with a broad variety of proven techniques for addressing them." Bob Olhsson (Stevie Wonder, Jackson Five, Marvin Gaye) "It's the videos here that really drive the narrative." Aardvark (Producer of The Daily Adventures of Mixerman Audiobook and Zen RPM ) "In the absence of an opportunity to apprentice in a major recording studio, this book is the next best thing. A way to learn from the best." William Wittman (Cyndi Lauper, Joan Osborne, The Fixx)
